

# LED CASE LIGHTING

A bright idea for improving your bottom line

Save energy and money with LED lighting for your reach-in and open multi-deck cases.

# LED CASE LIGHTING

**Rebate acquired:** Through EnergySmart Grocer

**EnergySmart Grocer rebate:** Please refer to the chart below

## See the light: LED benefits

- **Lower your operating costs**—LED case lighting uses up to 80 percent less energy than fluorescent systems.
- **Reduce maintenance costs**—LEDs are long-lasting, saving you money on replacements and maintenance.
- **LEDs enhance merchandise with visually brighter displays**—see the difference with cases that sparkle.

## Did you know?

LED lighting can greatly improve the efficiency of your refrigerated cases. This technology is quickly becoming the new standard, offering grocers a competitive edge through reduced maintenance costs and lower energy bills. Lighting makes up a significant portion of a store's total electricity use, and by making the switch to LED case lighting, you can directly impact your bottom line.
